

Mateus Vieira

Junior Software Analyst

Professional Qualification:

- FIAP School - technical high school (2021-2023)

I'm a student from Brazil interested in all kinds of technologies. I'm attending at the technical course in FIAP School and making some other [interesting projects](#) by myself.

Technologies that I use:

Front-End (Web)	Back-end (Web)	Database	High Performance Apps	Game Development
TypeScript (vue , react , angular)	TypeScript (deno , node)	PostgreSQL	D	C# (unity)
JavaScript (vue , react , angular)	JavaScript (deno , node)	Microsoft SQL	C (gcc , clang)	
Bootstrap	Ruby	Cassandra	C++ (gcc , clang)	
HTML	Elixir	MongoDB		

Professional objective

Practice and improve my knowledge of most diverse fields of technology, developing all kinds of apps

Idioms that I speak

- English (medium)
- Portuguese (fluent) [native language]
- Spanish (basic)

Other Competencies

- Agile development of software
- Software development oriented by UML diagrams
- Unix/Linux Configuration
- Leadership (basic) [3º year classroom representative 2023]

My Top Projects:

- [MedTempo Back-end \(Final Paper\)](#) - Write in Ruby with Sinatra
[<https://github.com/MedTempo/MedTempo-Ruby-Backend.git>]
- [Reddito \(2ºyear project\)](#) - Write in TypeScript (node) with Express
[<https://github.com/habdig7oficial/Reddito.git>]
- [Rime Cryptography Algorithm demo \(2ºyear project\)](#) - Write with JavaScript (Deno)
[<https://github.com/habdig7oficial/Rime.git>]
